

Executive board meeting November 29, 2011

Board Meeting, November 29, 2011

Mike U6 expand teams, same gross number but reduce the number of kids on a team; go to nine per team for a total of 144 total. Also, thinking about changing the u6 ball to a smaller, heavier ball. Decided that the ball does not make much difference.

Also, thoughts from a parent to make u6 more “structured”; decided to difficult with that age group due to focus and lack of coaches for the age group.

Maybe first day of u6 be a meet and greet for the first half and the second have a little coaches instruction.

Travel registrations are very light, very few new players, boys travel very light on registrations for returning players.

Uniforms, if we get the u16 team together, we have uniforms but would need to be numbered. Once we get final numbers we can decide what we need for uniforms for the spring.

Anna MPS bill needs to be reviewed/audited. Julie and Anna to present to the Parks and Rec department on 12/7/2011 on our annual grant. Mike makes a motion to accept treasures report and Kevin seconds.

Jay indoor training update from Ian; cost of gym is 44/hour. U8 is 9am, U10 is 10am, U12 is 11am, U14 is noon. If we want to extend it for the u16/u18 we can do that, just pay for the time.

Gym rental and MPS coach five hours is 4700 for season (approximate). Ian to reach out to the high school team to see if they want to use our gym time.

MYSL clinic on Thursdays 6-8pm in Waltham. Covering birthdate 1998 to 2002. They have a set curriculum that can be offered to our coaches.

One team has requested reimbursement for an indoor team.

Merchandise sales; awning selling our goods (coffee cups, blankets, etc) Luggage tags!!!

Spring gift: either cancel it, less expensive of every other year as we wish to focus the money on player development (MPS). Mike makes a motion to table spring gift; Jay seconds it.

Falzone field; bids supposed to go out in December, construction starts in march. Meeting rooms and lights still to be discussed.

Portable lights on field 4/5. Try it out to see if we can make the neighbors "ok", then start to make a move for permanent lights. Follow up need with P and R and the neighbors.

Need for MPS: billing issue, coaches thoughts, what to improve; tweak it for the spring.

Coaches licenses: G license by spring for all travel licenses.

Scholarship; two boys, two girls, \$1,000 each. Committee is Bob, Alison, Kevin.

Mike makes a motion to end meeting, Jay to second.
